WHY WE CHOOSE VIETNAM

Buisness friendly policies

As several business-friendly policies were introduced by the government, we have established Belmont manufacturing CO.,LTD in 2012. With strengthening economic friendship and the increase of Japanese companies entering the market, the number of Japanese learners has been increasing.

Skilled at hand assembly work

As can be seen in the traditional crafts, Vietnamese are well known for being good with their hands.

QUALITY

The equipment of the Belmont Manufacturing company produces in Vietnam high-quality products that meet Japan's stringent world class manufacturing and testing standards.

These passed the same designed criteria and safety standards as in Japan and we've also implemented the same durability test as we carry out in Japan.

Complying with these standards to ensure that we maintain Japanese quality allows us to offer products that provide peace of mind ,safety and long-term utility to all of our customers around the world.
